Appendix

Priority Queue Criteria:

The priority queue is intended for emergent patients who have had an exposure, and one of the following:

- 1. Are pre-arrest
- 2. Have arrested
- 3. Are seizing continuously
- 4. Have chemical burns >25% body surface area
- 5. Potentially require immediate, unusual antidote treatment for a highly toxic substance as their clinical condition is or could become unstable

OR where there are multiple patients with the same exposure overwhelming your hospital capacity.
